

Dear SIEF Member,

We have sent you a survey on Samarium oxide (CAS 12060-58-1, EC 235-043-6). Thank you for taking the time to complete this survey. Below you can find an overview of the answers we received from the SIEF.

**Less Common Metals Ltd** is officially accepted as lead registrant for this substance and has informed ECHA of its nomination. The LR role will be transferred from Grace to Less Common Metals Ltd.

**RESULTS  
SURVEY** (CAS 12060-58-1, EC 235-043-6)  
**Samarium  
oxide**

# surveys sent	# answers	Reg Intention	Type of submission dossier	2018 deadline	LR choice	Interested to join RE Consortium	Data owners
----------------	-----------	---------------	----------------------------	---------------	-----------	----------------------------------	-------------

			regular	On site isolated intermediate	Transported isolated intermediate	1-10	10-100	100-1000	agree	disagree

\* One member showed some interest in joining the RE Consortium but did not follow-up.

*The registration intentions of the Rare Earth consortium members are included in the results.*

In the attachment you will find the generic Substance Identification Profile (SIP) for Samarium oxide (CAS 12060-58-1, EC 235-043-6), for which an **Annex IX** REACH registration dossier will be developed by the Rare Earth Consortium in order to submit it for the 2018 registration deadline.

If you intend to become a co-registrant by buying a Letter of Access, you have now the opportunity to check that the substance you want to register falls within this SIP description.

If your substance does not meet the above specifications, then you will have to justify that the differences do not modify the conclusions of the hazard assessment and do not require a different Classification and Labelling. This information should be reported in the company specific (confidential) part of your co-registration dossier (IUCID sections 1-3).

The Rare Earth Consortium has developed a public website where all information related to the preparation of the registration dossiers under REACH will be made available.

Please take a look at <http://www.rare-earth-consortium.eu/>.

If you would like to provide any feedback on the above communication please contact us at [rare-earth-consortium@arcadis.com](mailto:rare-earth-consortium@arcadis.com)

If we don't receive a reaction before 06/05/2016, we will assume that you agree with the SIP.

Please keep us informed if your registration intentions would change.

Best regards,

Charlotte van de Water

ARCADIS on behalf of the Rare Earth Consortium
